J. B. WHITE CANDIDATE RE-ELECTION AS MAYOR

ASKS FOR SECOND TERM IN OFFICE TO HELP CARRY OUT IMPROVEMENT PROGRAM.

J. B. White has announced as a candidate for re-election to the office of Mayor for a second term. He has served for two years and the administration has begun and now has a number of uncompleted tasks and he is interested in seeing them completed.

The following statement is made in connection with his announcement:

"In announcing for re-election to the office of Mayor of the City of Cameron, I do so at the request of my good friends throughout the city, coupled with the fact that I desire a second term in office on account of the unfinished work of the administration in the way of public improvements now begun and yet to begin.

"The good people of Cameron have been friendly to me in every way and I wish to acknowledge their kindness and to say that my efforts in their behalf while serving in this office have always been exercised in the light of due appreciation and the service they deserve as a splendid Christian citizenship.

"Two years ago when I came into office I announced some definite policies I would pursue both with respect to enforcement of the law and of public improvements and energy in the government. While I may not have accomplished as much as the good people deserve, I have been faithful and unyielding in what I knew to be right. I shall not at this time undertake to enumerate the achievements of the adminstration in which I have had a part to play, but leave that to the good people of Cameron and invite their further help and co-operation in the things that are yet to be accomplished if we do our full duty as citizens.

"Laboring with me during the two years have been good and efficient men of the people's choosing whose efforts, like my own, have been inspired at all times with the very earnest desire to be of helpful service in administering the government. I trust that each of these splendid getlemen will stand for re-election so that we may finish the task together as we have so faithfully and earnestly started. There have been times when the burdens of this office have weighed heavily on account of the time required away from my business and because there is practically no compensation, and but for the fact that I desire very earnestly to finsh the work now in hand, I would not seek re-election.

"As in all ages of the world and under any and all governmental administrations there have been some who have hindered rather than helped, who instead of lending their hand in the fight have been either hostile or harmful neutrals. As for me I have no apologies to make for anything for which I have stood and do now stand.

"Some objection has been raised by some on account of the increased tax rate, blaming the administration, and some blame me personally for the increase. I have favored all of the public improvements that have been started. I accept whatever responsibility I may have incurred in their consumation. Any fair minded citizen will know that no tax increase has been made without a vote of the people and in every instance a duly signed petition has been presented to the council and the council acting under law has ordered the elections. The only exception is the paving program which will be financed by warrants authorized by the council without a vote of the people but which have the endorsement of the eitizens.

"I favor the school bonds, the sewage bonds, the paving, the sewer extension bonds, the band and park tax, the $100,000 road bond issue, the road maintenance tax. I voted for them all and believe they are right.

"I shall appreciate the support of the good people of Cameron and if elected to office again will be as faithful and unyielding in the right as has been true of me all of my life.

Very respectfully,
J. B. WHITE.

Mr. and Mrs. Frank Craven moved this week to Waco where Mr. Craven will work for the Reo Motor Co.

DAN TYSON IS CANDIDATE FOR ASSESSOR-COLLECTOR

POPULAR CITY OFFICIAL SEEKS RE-ELECEION TO OFFICE AT DEMOCRATIC PRIMARY.

The Herald is authorized to announce Dan Tyson for Assessor and Collector subject to the Democratic Primary February 5th.

The records of the city as well as the audit for each years shows that all receipts and disbursements passing through his department have been properly handled, and his clerical ability has met with the approval of all who have had occasion to investigate his system of handling the city funds.

Owing to his long experience in the State and County Collector's department there is possibly no one better posted in tax matters and the duties pertaining to the collection of taxes than Mr. Tyson.

If elected he promises the same service for the future as he has rendered in the past.

R. L. BATTE, JR., IN RACE FOR CITY MARSHAL HERE

ANNOUNCES CANDIDACY SUBJECT TO ACTION OF FEBRUARY PRIMARY.

R. L. Batte, Jr., native citizen of Cameron and wide and favorably known among the people here has announced as a candidate for City Marshal subject to action of the white Democratic Primary Tuesday, February 5, 1924.

In becoming a candidate for City Marshal Mr. Batte does so at the soliciation of his friends and because of an earnest desire to serve the people of Cameron as head of the police department of the city. For some time interest in his behalf has been manifested and Mr. Batte has agreed to become a candidate subject to action of the primaries.

It is not necessary that any word be said in the way of introducing Mr. Batte to the people of Cameron for they have known him all of his life, he having been born and reared here.

Mr. Batte says that if elected to office he will serve the people impartially, his policy to be one of absolute fairness and reasonable execution of the law. He will not serve any particular class but all the people if elected. He is not the candidate of any group of people but is making the race solely on his merits and what he anticipates he will be able to do in the way of making an efficient officer of the law.

Mr. Batte offers himself as a candidate on his own merits and will canvass for the office, stressing his proposition to become the best officer possible and to enforce the law without fear or favor. Mr. Batte will conduct his campaign on a high plane, mindful of the interests of all and wishing only to serve the best interests of the city in the administration of the affairs of this office.

He solicits the support of the people of Cameron and hopes that he will have active efforts in his behalf from all the people and commits himself to a policy of earnest effort and accomplishment in office so that his record will justify the faith of the people if he is elected.

R. L. Batte, Sr., father of the candidate, for eight years held the office of city marshal of Cameron, voluntarily retiring from the office. This was in the days of daring and danger and Mr. Batte measured up to every responsibility of the office.

Mr. Batte submits his candidacy to the consideration of the people believing in their disposition to endorse his aspirations to hold this office.

ORDINANCE IS PASSED.

The city council Tuesday night passed an ordinance requiring property owners to lay lead pipe connection to the water mains prior to the laying of the asphalt paving. This is the last legislation in connection with the paving.

Bismark Horstmann of the Tire Store, who with his brother, August, is agent for the Hudson and Essex cars in Cameron, was a business visitor in Dallas the first of the week.

Mr. Davis asks the consideration of the people to his candidacy.

COLLIN COUNTY PAPER PRAISES F. B. CABLE

CASHIER OF FIRST NATIONAL BANK COMPLIMENTED BY HOME PAPER.

F. B. Cable, cashier of the First National Bank of Cameron, is praised by the McKinney Democrat-Gazette in an article as follows published in a recent issue:

"Fred Cable, for several years cashier of the Rosebud State Bank at Rosebud, Texas, has been elected and has already assumed his duties as cashier of the First National Bank at Cameron, Texas. Fred is a son of the late M. L. Cable, who for several years was a furniture merchant in McKinney and who later died at his home at Marlin, Texas. Fred is a grandson of Mr. and Mrs. J. H. Cable and a nephew of Dr. and Mrs. J. F. Cole all of McKinney. Fred was born on his gradfather's farm west of McKinney. He is a fine young man whose ability as a successful banker has always been established and recognized. The many friends of the young man and his estimable family join in congratulating this native Collin county boy on the success that is crowning his career in banking circles of the state so early in life."

DR. FRANK KEEN TALKS TO BROTHERHOOD HERE

TELLS MEN THAT RELIGION IS ACTION AND BROTHERHOOD NEEDED.

Dr. Frank Keen, advertising manager of the Austin Statesman, addressed the Methodist Brotherhood Wednesday night, more than 150 men hearing his speech which undertook a discussion of the place of the laymen in the church, stressing the opportunity which he declares has come to the world at this time for the men of the church.

It was the largest gathering of men ever seen at a single meeting of the brotherhood.

The ladies of the Missionary Society served the dinner. Entertainment of a varied nature was provided with Oxsheer Smith as president presiding at the meeting.

The Carr quartette of Temple made a big hit with songs bringing the laymen to their feet time and time again with applause.

The greatest applause provoking event was that of a negro in mimic program in which he introduced a dog and cat fight, Mr. T. F. Hardy being called to the platfrom as representing himself on the farm as a boy back in the old native state. The negro gave three numbers which were thoroughly entertaining.

The Carr quartette closed the program with a Southern melody selection.

S. B. Ford of Rockdale was a business visitor in the city Monday.

Dow Eplen, Jr., arrived Monday in the home of his parents Mr. and Mrs. Dow Eplen, he weighed 10 pounds.

FATHER OF CAMERON MAN DIES IN WACO ACCIDENT

INSTANTLY KILLED IN COTTON OIL MILL MACHINEY TUESDAY AFTERNOON.

A. R. Richardson, age 63, was instantly killed Tuesday afternoon when his sleeve caught in a conveyor in the seed house of the Waco Cottoil oil mill in East Waco, and his head violently thrown against a post near the conveyor. He was employed as a laborer, and had been with the company for three or four months.

Fellow employes who were in the room at the time immediately stopped the machinery, but the body had been rolled round and round on the conveyor before it could possibly be stopped.

His head was crushed by the blow against the post and his brains knocked out and his right arm which caught in the conveyor, was slightly mangled by the machinery.

Mr. Richardson had been living with his son in law, Ben Speck, in East Waco, at 524 Hood street.

The inquest was conducted by Justice James R. Jenkins, and the body taken in charge by Compton's Undertaking company.

Mr. Richardson is survived by his wife, two sons, J. E. and J. R. Richardson of Cameron; five daughters, Mrs. F. R. Dillinger, Mrs. J. C. Hudson, Mrs. Geo. Cantrell, Temple; Miss Effie Richardson and Mrs. Ben Speck, Waco; one brother George Richardson, Ennis; one sister, Mrs. Maggie Shook, Temple.

The funeral will take place Thursday morning at 10 from the residence at 524 Hood street, with interment in Park Lawn cemetery.

BAPTIST LEADER HERE

Dr. F. S. Groner, secretary for the Baptist Convention executive committee and one of the Souht's leading Baptist leaders, will address the laymen of the Baptist church Friday night in the church.

The ladies of the church will serve the laymen a dinner and a program will be arranged on which Dr. Groner will be the principal speaker. Every Baptist laymen over the age of sixteen years is urged to be at the church on Friday night beginning at 7:30 o'clock.

JOYCE COX IS SECOND IN DEBATING SOCIETY

CAMERON HIGH SCHOOL GRADUATE GETS LAURELS AS A PUBLIC SPEAKER.

Joyce Cox of Cameron, son of Mr. and Mrs. M. G. Cox, has been awarded second prize in the John E. Quaid award at the University of Texas in a contest for representation on the intercollegiate debating team.

Word of the success of the Cameron boy was telephoned to Cameron Tuesday night following the award. This is the final contest for places on the four University intercollegiate debating teams.

The subject was: Resolved, that the Constitution of the United States be amended so as to permit Congress to over rule a decision of the Supreme Court as to the constitutionality of an act of Congress.

Joyce Cox was on the affirmative side of the question. The winners were Felix A. Raymer of Austin, first; Joyce Cox of Cameron, second; and James Hart of Austin third.

RAY ROBINSON IN RACE OFFICE OF CITY MARSHAL

ASKS SUPPORT IN COMING DEMOCRATIC PRIMARY TUESDAY FEBRUARY 5, 1924.

Ray Robinson, former Deputy Sheriff under L. L. Blaylock and well known in Cameron has announced for City Marshal, in the following statement to the people of Cameron:

In this week's issue of the papers appears my announcement as a candidate for City Marshal, subject to the action of the White Voters' Primary to be held on February 5th; and I think it is only fair to you that I make this statement concerning myself, so that yau may judge of my qualifications for the office to which I aspire.

I was born in Coleman county, Texas, thirty-two years ago. When I was seven years old my parents moved to Rockdale, where I was raised and educated. After finishing school I went to work for Scarbrough & Hicks and left their employ after two years to accept a position with the Sheer Company. I volunteered early in the war and graduated from the First Officers Training Camp at Leon Springs with the rank of Second Lieutenant, being immediately ordered overseas with the First Division. I spent over two years in France and was promoted to First Lieutenant during the war. In my service I gained experience in handling men which I think would be of benefit to me and to the citizens of Cameron if I am elected Marshal. Since the war I engaged in farming for one year, and them entered the employ of the Milam County Abstract Company, resigning that position to become Deputy Sheriff of Milam County under Mr. L. L. Blaylock. I was in office for one year, until his term expired, and acquired valuable experience as a law enforcement officer. I have since been an assistant to the County Engineer.

I promise, if elected, to enforce all the laws, all the time, against every person; to use my authority with judgment and discretion; to apply force only against persons resisting arrest, and then only so far as is absolutely necessary; to abuse no person, either physically or by word of mouth; and to show due consideration to those with whom I may have official relations; and finally I promise to suppress vice and crime of every sort in the City of Cameron.

Respectfully,
RAY ROBINSON.

EARLY BAPTIST HISTORY LINKED ABOUT PIONEER

BURIED IN OAK HILL CEMETERY MINISTER KNEW HARDSHIP OF EARSY HISTORY.

On last Sunday the following item appeared in the Dallas News:

FIFTY YEARS AGO.

The Rev. Mr. Creath, an old and well-known religious worker in Texas, preached at the First Baptist church Sunday, afterward taking up a collection to help build a Baptist church in San Antonio.

This notice calls to mind the fact that the dream of this well known Baptist preacher was accomplished by the erection of the San Antonio Baptist church that he labored so long and faithfully to build.

The notice also brings to mind the fact that the grave of this pioneer Baptist Missionary is on the crest of the hillside in Oak Hill Cemetery in Cameron, Texas.

A white marble stab with a Sculptured Open Bible on top stands at the head of his grave on the Anderson buriel plot.

The grave was first called to my notice by Dr. John Hill Luther; the venerable ex-president of Baylor College, while visiting in my home, asked to be shown the grave of this Baptist Missionary. With bared head he breathed a prayer that many might be moved to follow in the footsteps of Brother Creath.

Elder T. M. Morrel, who organized the Little River Baptist church in 1847 and later the Little River Baptist Association, in his last days which were spent in the home of Hon. T. S. Henderson's father in Washington county, wrote a history of the Baptist and their early struggles to establish the church in Texas and in its preface be thus acknowledged his debt for historical matter to Rev. Creath.

"My indebtedness is hereby acknowledged to Elder J. W. D. Creath, who has kindly allowed me the use of a large amount of material which he has been years collecting relative to the rise and progress of religion in Texas."

In the book he later gives this biography: "In the fall of 1846 the Texas Baptist Association received into her bounds a valuable addition of ministers. No ship that ever plowed the waves between New Orleans and Galveston ever brought a more valuable cargo than the one that landed Rev. J. W. D. Creath in Texas. He was by birth and education a Virginian. His father and several of his brothers were Baptist preachers. He first became pastor of the Huntsville Baptist church, but in 1850 be became the financial agent of the Texas Baptist Convention.

Look where you may on the minutes of Associations and general Baptist meetings and the name of Elder J. W. D. Creath appears pleading the mission cause. East, west, north and south, over the vast territory of Texas, this indefatigable worker travelled and greately stirred up mission

TAX EXEMPTION FARCE MUST END.

Will Congress adopt Secretary Mellon's program for tax reduction which includes a reduction in income tax and the doing away with future issues of tax-exempt bonds?

The President and the people are in favor of tax reduction. The politicians, through their bocs and parties in Congress, are pulling and hauling to try to gain personal prestige through delays and log rolling in the tax reduction program.

A constitutional amendment to do away with tax-exempt securities passed House of Representatives last winter but died at expiration of Congress. It is now necessary to pass it again. This takes valuable time and shows waste and expense resulting where public officials play politics instead of expediting the business of the nation.

At the present time it is estimated that the income from apporximately $30,000,000,000 in capital invested in government tax-exempt securities, escapes all forms of taxation. The fact that cities, counties, states and nation can issue tax-exempt bonds drawing a low rate of interest has caused a reckless increase in public debt and has furnished the loop-hole for billions of dollars to escape taxation.

After an amendment to the United States constitution is passed permitting the taxation of income from future issues of public bonds, it will be necessary for legislatures of the various states to ratify the measure. For this reason, quick action in Congress is essential in order that state legislatures which are in session or which will be in session in the near future may be able to act on the measure and put an end to the present obsolete system which is an invitation for the reckless piling up of debt on one hand and lawful tax dodging on the other hand.

It would seem as if Republicans, Democrats and Progressives would be on common ground when it comes to a measure of this kind which would assure in the future that every person would pay his share of income tax. Is it not possible for Congress to cut out politics and get down to business on this measure?

FACTS ABOUT BONUS.

The bonus question and tax reduction are the two live issues before Congress. Politicians seeking re-election hate to commit themselves on either measure at the present time. Real statesman have been trying to work out these national problems and give the people the facts. If the people know the facts, public opinion may be relied upon to bring about a satisfactory conclusion.

The three different measures placed before Congress for a soldiers' bonus are the Fordney, McCumber and Mott bills. All three give ex-service men the option of choosing any one, but only one, of the following plans:

1. Adjusted service pay, cash award. 2. Adjusted service certificates, insurance. 3. Vocational training aid. 4. Farm or home aid. 5. Land settlement aid. Cost involved in these bills varies as does time in which government must pay.

The McCumber bill has made most progress, as it has been reported on favorably by Senate Finance Committee. But from taypayers' standpoint and for good of country, the Fordney bill is considered best as the government has longer time in which to pay.

In considering McCumber bill, the Finance Committee belives minimum possible cost would be $1,560,000,000 if every veteran took the cash payment plan. The maximum would be $5,273,000,000 if every veteran took adjusted service certificates (insurance). Under what Finance Committee belives would be eral operation of legislation, total cost would be about $4,396,000,000 scattered over a period of 20 years.

Comparing governmental expenditures for 11 months of fiscal year 1921 with whole year 1914, it is found that federal expenditures were 2,700,000,000 more than expenditures for 1914. Proposed bonus would be in addition to these expenditures.

For years ending June 30, 1921, expenditures of federal government alone were about $50 per capita, or $250 per annum per family, as against $7.07 per capita in 1914.

Taking the 17-months period during which we were at war it is found that the various enlisted men received in pay during that time the following sums: United States, $570.00; France $27.55; Italy, $33.06; Russia, $7.41; Great Britain, $138.70; Zealand, $138.70; South Africa, $138.70. It is understood Belgium paid a slightly higher rate than France; Canada paid the same as the United States; while Australia paid approximately $42.00 a month, the highest amount of any country.

Every state in the nation except six has made provision for bonuses or assistance to ex-soldiers. These benefits are estimated to total over $184,000,000. In addition, the national government gave cash bonuses at time of discharge.

Roughly, the foregoing is a summary of facts involved in the bonus question. It will be for people of the United States to decide whether in face of such expenidtures as have already been made and as are being made to maintain our government at present time, is it wise or necessary to enact proposed bonus legislation for benefit of uninjured veterans, at a cost estimated at from $1,500,000,000 to $5,000,000,000.

PREPARING TO BARBECUE TAXPAYERS.

In the state of Washington, a measure is being agitated to launch the state in the development of hydro-electric power. It is interesting to note that those favoring this socialistic measure are practically all public officials or ex-public officials.

There is no general demand on part of public for state development of industry. Such programs are worked up as political propositions for the purpose of appealing to large numbers of uniformed or misinformed voters.

Supporters of state ownership resist most aggressively any suggestion that publicly owned plants be required to pay taxes the same as any other industry, thus relieving the general taxpayer from the double load he must carry under our present laws which exempt publicly owned property from taxation.

Private control of public utilities with govermental regulation, as now in force throughout the country, has been successful in a way that public ownership and operation has never even approximated. The initiative and good management obtained by privately controlled companies are lacking under political or public ownership plans.

If Washington or any other state can be loaded with a mortgage aggregating hundreds of millions of dollars for public ownership of industry, what a mecca it will be for the job hunting politician and thousands of additional employes on the public payroll.

NATIONAL INDUSTRIAL WEAKNESS.

Secretary Davis of U. S. Department of Labor says the old apprentice system can never be revised in our country with labor organizations, and divisions of labor into specialities. Too few trades offer young men an opportunity to learn by direct contract.

Our entire educational system is tending toward producing professional classes, with almost no relation to industry and production. Secretary Davis, speaking before the National Society for Vocational Education, said it was a mistake to turn out 90 per cent of the young people equipped only for "white collar" occupations.

As a matter of fact in almost any community, by actual count, only 10 per cent of jobs are the "white collar" class. Mr. Davis, himself a product of the workship, warns us that our country cannot be kept in lead as industrial nation under this system.

Labor organizations shutting young men out form learning trades, and schools and colleges turning out nine professionals when only one is needed, will not maintain our hold upon the trade of the world.

Our country will have to learn the lesson once more that labor and productive industry are the foundation of prosperity and our boys and girls must be made to realize that it is not undignified to toil with one's hands.

IT CAN'T BE DONE.

Practically every public official or candidate for office says he favors tax reduction. In the next breath he will propose passage of one or a dozen measures requiring large appropriations of public money (taxes.) It would be impossible to adopt such measure and secure a tax reduction at the same time.

Take the bonus question as an illustration. According to published figures the various states have already paid or authorized $390,600,000 in bonuses to war veterans while at time of discharge of venterans the government paid them $270,000,000 taking a total of $650,600,000 in bonuses, a larger than the combined bonuses of Great Britain and France. Injured veterans should receive every consideration from the government regardless of expense—such compensation should not be confused with the bonus.

Secretary Mellon has laid a definite program before the country to reduce the income tax bill over $300,000,000, however if bonus legislation is passed this reduction cannot be made but an increase will be necessary.

If a bouns measure is passed the ex-soldiers who are now becoming business men would, through increased taxation, have to pay a large percentage of the bonus they receive. The candidate who cries tax reduction in one breath and then advocates various burdensome obligations in the next breath is simply fooling the people.

PUBLIC PAYS FOR TAX-EXEMPTS.

"Money tied up in federal and tax-exempt securties is increasing the expense to industrial enterprises of selling securities in blocks. These enterprises must pay excessive rates of interest to equal the 4 1-2 per cent on tax-exempt federal bonds and in addition taxes which private industry must pay," says Franklin T. Griffith, President Portland Railway Light & Power Company.

R. S. PORTER FORMER CAMERON BUSINESS MAN PASSES AWAY AT HOME IN GOREE

R. S. Porter, a substantial business man of Cameron for nearly thirty years before moving west, died at his home in Goree, Knox county, Texas, Sunday, January 13, 1924, at the age of 87 years, 6 months and 21 days.

This information was received by Henry M. Hefley, former cashier of the First National Bank, Sunday and will awaken a trend of memories in the minds of all old settlers.

Mr. Porter was born in Hall county, Ga., in 1836. He came to Texas in 1867, settling first in Davilla, this county. After clerking for a time, he saved enough of his earnings to engage in business for himself and soon built up a splendid trade. When the town of Taylor was established, in 1876, he opened a branch house there and was the first man to build a business house in that place. He conducted these two houses until 1880 when he moved to Cameron and formed a partnership with R. M. Wiley. The firm, Wiley and Parter, occupied the first brick business house built in Cameron. This building was torn away a few years ago and replaced by the present Cheeves Dry Goods Store. After a few years, Wiley retired from the business and the mercantile house of R. S. Porter was a well known and largely patronized establishment in Milam and adjoining counties for more than a quarter of a century. During this period, he had as valuable assistants, men who afterwards became successful in their own ventures, among the number were the late W. M. Ross, and T. F. Hardy, president of the Cameron State Bank. The late Capt. John B. Wolf was an employe of the Davilla house. Mr. Porter was a practical business man but there was much of romance in his life.

When a boy of 16, he left his father's farm in Georgia for the much talked of gold fields of California. He mined three years on the Uuba River, spent a while in the Arizona field and in 1859 went to Alaska. Returning to California, he heard of the out-break of the Civil War and determined to enlist with the Confederacy. His experience in working his way through California, Washington, Idaho and Montana to the head of the Missouri River and the trip down this river in a flat boat to St. Louis, and family to Bowling Green, Kentucky where he enlisted, is full of romatic interest.

After the war, he returned to Ga., but the call of the west lured him to Texas.

He married Miss Fannie M. Martin, daughter of Dr. Ed. A. Martin, a prominent Milam county citizen. His wife and two sons, Martin and Bufford, survive him. The oldest son, Frank, died a few months ago.

About fifteen years ago, Mr. Porter bought large tracts of land in Knox county. He moved there and spent his last days ranching and farming. He was a Knight Templer Mason and a member of the Methodist church.

SHERIFF'S SALE.

Notice is hereby given, that by virtue of a certain Order of Sale issued by the Justice of the Peace, Precinct No. One, Dallas County, Texas, on the 2nd day of January 1924, in a certain cause wherein Brooks Mays, trading as Brooks Mays & Company is plaintiff, and Robert Smith is defendant, numbered 2439 on the docket of said Court, in which cause a judgment was rendered on the 10th day of September 1923, in favor of the said plaintiff Brooks Mays, trading as Brooks Mays & Company against said defendant Robert Smith for the sum of One Hundred, Fifty-two ($152.95) and 95-10. The above sale to be made by me to satisfy the above judgment in said cause No. 2439, amounting to $125.95, interest, costs in favor of said plaintiff Brooks Mays as aforesaid, together with the costs of said suit, and the proceeds applied to the satisfaction thereof.

D. S. ROGERS, Sheriff
Milam County, Texas.
By N. O. Kennedy, Deputy.
Cameron, Texas, Jan. 4th, 1923.

AN ORDINANCE.

Controlling the Slaughtering, handling and storing of meat and meat food products offered for sale within the City of Cameron; providing for the filing of name of all dealers in uncured meat products with the anitary officer; providing character of and location holding pen and killing plant; providing for a penalty for a violation of this ordinance; and declaring an emergency.

Be it ordained by the City Council of the City of Cameron, Texas:

FIRST.

All butchers, peddlers, barters, sellers and storers of uncured meats, within the City of Cameron, shall file his name with the Sanitary Officer, giving business and address.

Second.

All animals used for meat purposes shall be in the pens adjacent to the slaughtering plant at least twelve hours before killing same, and no over-heated, exhausted or freshly hauled animal shall be killed until completely rested.

Third.

Location of killing plant shall be where drainage conditions are good. No pools or stagnant water shall be within 400 feet of the place of killing.

Five.

a. The house used for killing shall be large enough to supply ample room so as not to be crowded at any time, and shall have an abundance of natural light.

b. The walls shall be tight to prevent water, blood and other material from collecting in crevices and cracks.

c. The floors shall be constructed of brick, tile or concrete with plenty of drainage and with ample drains to carry off all water and blood at once.

d. All openings shall be screened with wire not less than 14 meshes to the inch on tight fitting frames, and kept securely closed, except when opened for immediate operation of such business.

a. Hides and pelts and hair shall be removed from carcasses in this room and immediately removed therefrom. The hide house or pit shall be at least 50 feet from the place of slaughtering, and shall have no connecting doors.

f. All viscera, including lungs, heart and trechea, shall be removed rom the carcass as soon as hide or pelts are removed, and the eribble offals shall at once be removed, washed in clean water and hung on racks. All edible offals shall be immediaetly removed from the room without removing any of their contents.

g. Care shall be taken not to contaminate the carcass with dirt, bile, blood or bowel contents, but if they should be, they must be immediately washed with clean water. On final dressing, the carcass shall be removed at once to a cooling room which shall be as near dust proof as possible.

h. No hogs shall be evisciate until all hair and hoofs have been removed and thoroughly scrubbed with hot water and a stiff brush removing all dirt and sand.

i. Ample washing facilities shall be provided for workmen at all mes. The spitting upon whet stones, steels and knives will not be permitted. One vessel and disinfectant shall be kept on hand in case workmen ind a diseased animal. All tools used shall be immediately disinfected.

Five.

The holding pen adjacent to killing plant shall be of concrete floor and all material shall be washed from the feet and legs of animals before they are killed. The said pen and plant shall be thoroughly washed and cleaned, including all tools, buckets, etc., afte reach day's kill, allowing no meat, blood or hair to remain from one day to the next. All water must come from a well or source which is not contaminated.

Six.

No feeding pens shall be within 50 feet of the killing plant, and hogs receiving tankage, offals or garbage must not be kept within six hundred (600) feet of the slaughter place.

Seven.

It shall be the duty of the person or persons in charge of the slaughtering places, on the first of each month to furnish the names and addresses of all persons who have had animals killed at the plant during the past month, to the Sanitary Officer of said City of Cameron.

Eight.

a. It will be the duty of any person, firm or corporation storing meats and charging fees for the same, to furnish the Sanitary Officer of the City of Cameron on the first of each month, names and addresses of all persons using the same for each past month. b. Any store room, refigerator, ice box, or other receptacle which is called natural or artificial for the cooling of fresh meats, shall not be used to store any article except meat.

Nine.

Any person, persons, firm, firms or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor, and shall, upon conviction thereof, be fined not less than One ($1) nor more than One Hundred ($100) Dollars, and each day's offense shall constitute a separate offense.

Ten.

Nothing in this ordinance, except Section 1 hereof, shall apply to farmers killing and selling meats raised by them on their own farms, but such farmers, before offering such meat for sale, shall file their names with the Sanitary Officer in accordance with Section 1.

Eleven.

The fact that there is no adequate ordinance controlling the slaughtering, handling and storing of meat and meat food products creates an emergency and an imperative public necessity that the rule requiring ordinances to be read on three separate days be and the came is hereby suseffect from and after its passage and pended, and that this ordinance take publication, as required by law, and it is so ordained.

We your Ordinance Committee, respectfully recommend that the above ordiance do pass.

W. O. Triggs.

Passed unanimously this 7th day of January 1924.

Approved this 7th day of January 1924.

SAGE TEA DANDY TO DARKEN HAIR

It's Grandmother's Recipe to Bring Back Color and Lustre to Hair

You can turn gray, faded hair beautifully dark and lustrous almost over night if you'll get a bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old famous Sage Tea Recipe, improved by the addition of other ingredients, are sold annually, say well-known druggists here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound to-night and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.

Great News

Home-Owning Made Easy

Perhaps for years to come there will not be a better time to build the "Home of Your Dreams," than right now. Building material will not decline;; labor will not be cheaper and building lots are available at reasonable prices.

With the general prosperity of the country now, ambitious men who have a little saved up can furnish his building program and pay the rent to himself. Maybe we can help—at any rate it will be a pleasure to us and no obligation to you—to help you with your plans and problems. Bring your building and financial problems to us.

There is nothing to be gained by delay, so—

The bride, Miss Agnes Cooke, the accomplished daughter of Editor John Esten Cooke oft he Lockdale Reporter has many friends in Cameron who extend congratulations and wish for her and her husband a life of usefulness and happiness.

Mr. and Mrs. Wallis will be at home at 1024 Hemphill street, Dallas. Mr. Wallis is a son of Dr. and Mrs. Duncan R. Wallis of Rockdale.

CLASS ENTERTAINED.

At the home of her parents Mr. and Mrs. Ben P. Atkinson, Miss Katharine Atkinson entertained the members of the Freshman Class Saturday evening. Eight tables were prepared for the game of Hearts and this diversion was heartily enjoyed by those present. Misses Jolly Blanche Pitts and Lucile Dickard, class sponsors, were present and directed other games, after which Mrs. Atkinson, assisted by her daughters, served hot chocolates and cakes. The Freshmen enjoyed the first hospitality of the new year and voted the Atkinson home a place of real joy and hospitality and Miss Katharine a most charming hostess.

BAPTIST W. M. U.

The Bapitist Women's Mission Union conducted a program of Bible Study Monday afternoon in the different Circle meetings, using Thomas' Bible Questions as a basis for the lesson. An assignment of fifty questions is made for each lesson.

Circle number one met with Mrs. John Dobbins, with Mrs. H. M. Roark as leader. There were five ladies present.

Circle number two met with Mrs. Geo. H. McGehee, Mrs. Geo. A. Thomas led the lesson and twelve ladies were present.

Circle number three met with Mrs. W. H. Henley, and lesson study was led by Mrs. T. S. Henderson. There were thirteen present.

Circle number four met with Mrs. J. R. Hays, with Miss Winnie Henderson as leader. Thirteen ladies were present.

FORTY-TWO CLUB.

On Tuesday afternoon at 3 p. m. Mrs. Julian Baskin was hostess to the Auction Fort-two Club at her home in East Cameron.

Three tables of players enjoyed the games. The score cards made by the artistic hostess were minature dominoes and each table was centered with a package wrapped in white and tied with black ribbon with domino markings. At the close of the games these were awarded to Mesdames W. A. Bonds, H. G. Patton and Chas. McDermott as luck favors. The hostess, assisted by Mesdames Claude Triggs and Hilry Stedman served a salad course.

Mesdames Hilry Stedman of Cameron and Stanley Bowles of Indianapolis, Indiana, were guests.

MASTER GEO. HUBERT CASE.

Friends of Rev. and Mrs. H. C. Willis will be interested to know of the arrival of a little son in the home of their daughter, who was known here as Miss Mattie Willis, which was brought in the following announcement:

From Storkland on Dec. 28, 1923, weight 7 1-2 lbs, name George Hubert; Mr. and Mrs. Geo. N. Case, Jefferson, Texas.

PRISCILLA CLUB.

A beautiful hospitality was enjoyed in the home of Mrs. Charles McDermott last Thursday afternoon by the members of the Priscilla Club and the following guests: Mesdames Stanley Bowles of Indianapolis, Indiana, Charles F. Swift of Gardiner, Maine, John Edwards, H. F. Smith, Jr., Mack Hohler, W. H. Triggs, James Coleman, W. O. Triggs, Wm. Rogers and Walter Newton.

After an hour of needle work and social conversation the hostess assisted by Mrs. Rogers served an appetizing salad course.

The home was made more attractive for this occasion with cut flowers and ferns.

PRESBYTERIAN AUXILIARY.

Circle number two of the Presbyterian Auxiliary met in the home of Mrs. John Elwards Monday afternoon and a sewing bee made the hours pass quickly.

STUDY CIRCLE.

The Study Circle of the Methodist Women's Missionary Society met in the basement of the church Monday afternoon. In a short business a committee on Bible Study was appointed and the report of the re-districting committee was accepted.

Mrs. R. L. Batte, director of Mission Study conducted a study of the first chapter of "The Child in America's Future." Mrs. Batte's comments on the chapter were most instructive and illuminating. Several volunteers joined in the lesson discussion.

Mesdames Walter Sharpe and Pope Sapp were hostess and served a chicken salad course with hot tea to about twenty ladies.

A small but appreciative audience greeted the High school players last Friday night in the Yoe High School Auditorium. The play, "A Full House" directed by Athletic Director, Perkins, deserved a much larger patronage than it received.

The students, Messrs. Irvine Harlan, Richard Vest, Clifford Barmore, Kenneth Keith, Glenn Flinn, Sam Cheeves and Misses Rosalie Baskin, Eloise Rogers, Lucile Camp, Mary Sue Denson, Eugenia Wallace, Frances Looney and Lily Kate Beckerman who so cleverly presented the play each deserves special mention and each will no doubt yet win stage laurels.

TERRY-KIRK.

J. D. Kirk and Miss Una Fay Terry were married Wednesday afternoon at the Baptist Parsonage in Cameron, Rev. E. S. Hutcherson performing the ceremony.

The marriage ceremony was a quite affair and witnessed by only a few intimate friends.

Mr. Kirk formerly conducted the Army Store in Cameron and is well known here as is his bride Miss Una Fay Terry.

Wednesday night a wedding dinner was served at the home of the groom in Cameron. The happy couple will reside in Cameron for a few days and will soon move to their farm near Cameron.

Their many friends wish for them a life of happiness and success and the Herald joins in congratulations.

FIRST METHODIST CHURCH.

Sunday morning the pastor will speak from the subject, "Christian Education." At the evening hour, Dr. R. W. Tinsley, professor in Southwestern University, will occupy the pulpit. Dr. Tinsley has been with the Southwestern for many years, and is always heard gladly by the people.

loving Baptists throughout the State. No agency has accomplished so much in developing the Baptist cause in Texas as the mission enterprise of the Baptist State Convention.

Elder J. W. D. Creath has been the leading spirit in this great work.

Elder J. W. D. Cerath died near Cameron at the home of Elder T. M. Anderson. No man died with the harness nearer all on and better adjusted than Bro. Creath."

"He came in a buggy, driving his old horse, John the Baptist. As he and Bro. Anderson were taking old John the Baptist to the lot, Bro. Creath said, "Well, Bro. Anderson, my old horse and I are both worn out, but we have kept the faith and we have come home to die." Bro. Anderson tried to reassure the old man but his words were prophetic for he did pass away in great peace that night.

Reverend Anderson had him buried on his own lot and this inscription is on his tomb:

In memory of
Josheph W. D. Creath
born in
Mecklenburg County, Virginia
February 3, 1809.
Educated at
Richmond College, Virginia
1832-1837.
Died in Milam County, Texas.
July 28, 1881.

Elder T. M. Anderson, at whose home Reverend Creath passed away, was a beloved Baptist divine who lived at the Randolph crossing on Little River. He was the grandfather of Messrs. T. A. Randolph, O. L. Kidd, Mrs. George H. McGehee and Mrs. S. M. Burns, Sr.

T. A. Randolph vividly recalls Reverened Creath's last visit to his grandfather's home.

His last words were, "Sweet rivers of redeeming love lie just before mine eves."

For 50 years a preacher of the gospel, 14 years in Virginia and 36 years in Texas."

RELIABLE STORE MAKING INTERIOR IMPROVEMENTS

J. P. WERNER & COMPANY GETTING READY FOR BIGGER 1924 BUSINESS.

J. P. Werner of the Reliable Store in Cameron will let the contract in a few days for modern improvements in the interior of the big store in Santa Fe town. The improvement will consist of rebuilding and re-arranging the shelving in the store and placing each department of the business to the best possible advantage.

Mr. Werner in discussing conditions declared that the prospects are good for a great year in 1924 and is making the necessary improvements in his business to take care of the trade increase for the year.

Mr. Werner is a progressive merchant and one who knows the business in which he is engaged and his improvements will anticipate every demand to be made on increased business in the years to come.

Everything in the store will be modern with low shelving and a highly departmentized store with a greater ladies ready to wear department to be in charge of an expert sales woman.

Radio Brings College Study to Students at Home

Actual college study by radio has been started in Oregon by the state university. Certificates are issued to those who listen to a series of twelve lectures. Questions regarding the course are answered by mail. While lectures by professors are a popular feature of the programs of most of the large broadcasting stations, this is said to be the earliest effort to give a real course by wireless.

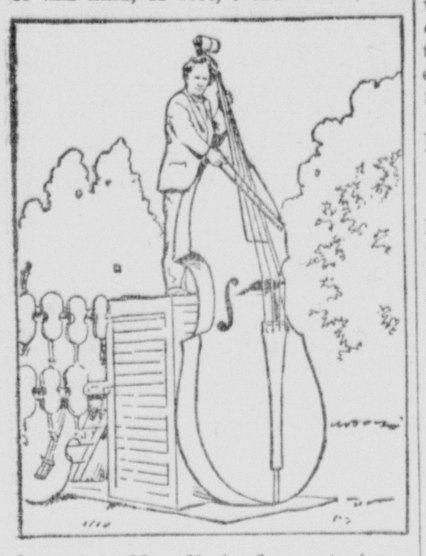
Bass Viol so Large Player Stands on Pedestal

Measuring 14 feet from tip to base, a bass viol has been made by a western man, who claims it is the largest in the world. In order to play it, the musician must stand on a pedestal five feet high. The same maker constructed another of the big fiddles which measured 10 feet. Formerly the largest known instrument of this kind, 11 feet, 7 inches tall, was



located in New York. It required two players, one to stop the strings and the other to handle the bow.

Airplane With Moving Wings to Rise From Housetop

Intended for rising out of narrowly limited spaces or from the roofs of ordinary buildings, an airplane which has wings that resemble paddle wheels is being built by an inventor. These, with forward motion, will carry the machine up, down, ahead, or backward, according to the designer, who expects his craft to even stand still in mid-air without changing the direction of the wings' rotation. It gets its power from an airplane engine, which drives the propeller by means of chains.

Photo Test for Efficiency Reveals Lost Motion

How efficiency of workers is reduced by lost motions is being shown through detailed photographic studies. Observation of bricklayers of ordinary training, who are said to use the same methods that have prevailed for 7,000 years, and of that most ancient of craftsmen, the berry picker, are said to give no indication that the best way to do these tasks is to follow instinct. The layer of brick can be trained to do three times as much work with the same effort, according to the tests. Similarly, the berry picker can increase his harvest fifteenfold, it is said.

Turned Posts for Homemade Furniture

The appearance of homemade tables and other furniture can be improved considerably if round legs are used instead of square ones, which immediately give the job away, no matter how well done. It is not necessary, in most cases, to go to the trouble of having legs made especially for this purpose, or to ransack the market for them, as ordinary stair balusters, which are available in a variety of sizes and forms can be procured from any dealer in lumber and millwork. These balusters make as neat table, pedestal, and chair legs as can be desired and cost very little.

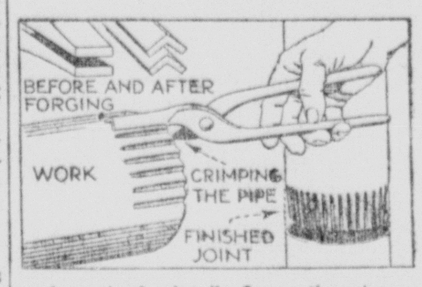
Crimping Tool for Pipe

Anyone who has attempted to join two lengths of galvanized-iron pipe, when the end of one length is not crimped, will appreciate the homemade crimping tool shown in the illustration. A pair of ordinary long-handled flat-nosed pliers was heated and the jaws forged to a V-shape,



as shown in the detail. In use the crimper is simply pressed over the metal around the end of the pipe, which reduces the diameter, so that it can be pushed into the end of the other length of pipe.

Gas Formed in Grain Cargo Raises Sunken Ship

Gas, generated by saturation of grain by water, recently raised a ship that had lain deck downward on the bottom of the Mediterranean Sea since 1916, when it struck a floating mine. As the vessel reached the surface, keel upward, it turned over and the gas, rushing through openings in the deck, exploded. Gram was blown high into the air and scattered over the sea, while the boat filled with water and sank again.

HARRY TAG BACK FROM CONVENTION AT DALLAS

MAKES GOOD RECORD AS CURTIS PUBLISHING HOUSE SALESMAN.

Harry Tag was in Dallas, Texas, January 10, 11, and 12 attending a convetion of Curtic District Agents at the Adolphus Hotel. This is the first such convetion ever held in this section of the country.

Harry received the convetion invitation because of the excellent representation he has given the company in our city.

The convention was for the purpose of getting the agents better acquainted with the ideals of the company and to enable the boys to learn more about the Curtis Vocational Plan, through which boys who sell the Saturday Evening Post, the Ladies Home Journal and the Country Gentlemen receive, while yet attending school, a thorough course in business training.

Thursday the first day of the convention was devoted to "getting acquainted" except in the afternoon when the boys receive a thorough explanation of the fundamental policies of the company in order that they might appreciate the great part they play in conducting the business of the greatest publishing company in the world.

In the evening Mr. Ralph B. Miller, the Vocational Director, and Carlisle Crutcher, a boy agent from Muskogee Okla., broadcasted from station WF AA an outline of how the work in which the boys were engaged was a valuable business training for them and was helping them prepare for their permanent vocation.

On Friday evening the boys were the guests of their company at a theatre party given at the Majectic theatre. A very unusual feature was that the actors who entertained them in the evening met all the boys at a luncheon. You can picture how the boys enjoyed the show!

On Saturday at noon the boys were addressed by C. E. Calder, a very prominent young business man of Dallas. Mr. Calder is president of the Texas Power and Light Company, President of the Dallas Power and Light Company and Vice President of one of our big Interurban lines. The boys greatly impressed with the address for it contained a message that was very inspiring to boys who even though they were yet attending school, are learning so much about the business world.

Saturday afternoon the boys visited the Dallas Zoo—the fifth large t in the country.

A banquet was given the boys at the closing session at which the speeches, special music and the entertainment was greatly enjoyed.

The representative of the Curtis Publishing Company's Home office in Philadelphia who attended the convention were: H. F. Douglas, Assistant Circulation Manger; J. F. Donnelly, Convention Chairman; W. J. DeGrouchy, Manager of Sales Publicity; A. J. Holl, Manager of Travelling Superintendents, C. L. Grosjean, Manager of Sales Detail; Ralph B. Miller, Vocational Director and Sam G. Wingfield, Editor.

WHERE THE RAINBOW TOUCHES THE GROUND

THE family cat died. The farmer who owned the cat, in digging the grave discovered a substance which proved to be marl. This farmer had been hauling limestone a long distance for his alfalfa fields. In conference with his county agent, he discovered that marl would take the place of lime in correcting the acidity of his soil. This experience led him to the use of marl that existed on his own farm and saved him much time and considerable expense in hauling.

Similar opportunities have existed and still exist. Many farmers in the middle west will recall what a pest sweet clover used to be. Now this pest is being used profitably as hay and pasture for livestock and as a crop to be plowed under for increasing the fertility of the soil.

Kansas is called the "Sunflower State" and those who have lived there will well remember how they have fought this weed. Today sunflowers are being grown as a crop, as feed for chickens and it is also being utilized with or without corn as a suitable crop for the silo.

It is surprising to discover how many things which were frowned upon in days gone by are now serving a useful purpose. These changes have been brought about by observation and study. Brains count on the farm as elsewhere. The man who thinks while he is performing physical work is not only opening up the way for larger profits but he is removing the word drudgery from his vocabulary and is transforming what used to be a drudgery into a profitable pleasure. —The *Banker-Farmer*.

BANKERS HELP THE KIDS

Northern Michigan Bankers are out to give the youngsters in their part of the country a lift on the road to better dairying. A group of bankers met with some of the agricultural men in their section and pledged their support in backing up calf club work.

Her Very Own Pig—A Boys and Girls Club Member

Virginia, Minnesota, Bankers have faith in "kids." Meeting with a committee from the Virginia Chamber of Commerce they formulated plans for the establishment of Calf Clubs and "Pure Bred Bull Associations." Banks all over St. Louis county have pledged their support to this work.

An Arkansas bank loaned a youngster $70, in 1920. The boy bought a purebred Poland China gilt from a breeder in a neighboring state. Being the first purebred gilt brought into the county for boys and girls club work, she has furnished more stock than any other sow in the section. With the start that the bank gave the youngster he has been able to refute the claim that hog raising in his county was not profitable, for at the present time he has more than $1000 to his credit as a result of the original bank loan and investment.

REMARKABLE SAVINGS FIGURES

Remarkable progress in the savings habit in the United States is shown in figures presented to the recent convention of the American Bankers Association by Samuel H. Beach, president of its Savings Bank Division.

In 1921, Mr. Beach showed, twenty-six million people had savings accounts aggregating $16,618,595,000. In 1922, there was an increase of over four per cent, bringing the aggregate up to $17,300,000,000. Similar statistics for 1912 showed that the aggregate was only about half as much as in 1922 or only $8,433,000,000.

Mr Beach's report on school savings banking showed that practically two million pupils are now participating in school banking systems, an increase of 34 per cent as compared with last year and 78 per cent as compared with 1921, while the total of the actual amount deposited last year was $[illegible],000 as compared with $5,775,000 in [illegible] and $2[illegible],000 in 1920, an increase [illegible] per cent in three

LION AT LARGE ON FAST TRAIN.

Kansas City, Jan. 14.—After 12 hours freedom roaming connecting express cars on east bound Santa Fe train No. 8, which arrived here early today, a lion was safely caged and tonight was en route to Louisville Kentucky.

Hundreds of persons swarmed the Kansas City terminal yards this afternoon and were thrilled while a crew from the Swope Park zoo caged the beast. After efforts had failed to entice the lion with bait, N. T. Clarke, superintendent of the zoo, put a lasso on the animal's neck and pulled it into a waiting cage.

The lion's freedom was discovered by John Walston, express messenger who awakened just east of Emporia, Kan., and gulped when he saw an untenanted cage in the same car. The lion had liberated itself by gnawing the wood away from iron bars in the cage.

Cautiously Ralston ventured into the car ahead. The lion, atop some boxes, met his gaze and started toward him. The messenger left that car with speed, securely bolting the door. Later he bolted the door of the second car ahead.

The lion paced back and forth, pawing over express packages.

Passengers were unaware that a wild beast was stalking the express cars ahead. At Argentine, Kan., a suburb of Kansas City, the cars were switched off an a hurry up call sent for Clarke.

The lion was put on the train by K. C. Beck at Hutchinson, Kan., consigned to Floyd King in Louisville.

NEFF FOR PRESIDENT CLUB ORGANIZED WACO

THEY GATHER WITH JOE HALE IN GOVERNOR'S OFFICE AND PASS RESOLUTION

Friends of Governor Pat M. Neff gathered in former offices of the governor at Waco Saturday afternoon, and formed the first "Neff for President" club.

A committee was appointed, with Dr. J. T. Harrington chairman, to call a second meeting—the scope and program of which is left entirely to the committee, which consists of Dr. Harrington, W. W. Woodson, C W. Meadows, Judge W. E. Spell and Robert H. Rogers.

A "straw-tossing" move, to find how the political winds blow in regard to the Neff candidacy, is the way the meeting was generally viewed by those taking part. With McAdoo and Underwood, the leading democratic possibilieies, described as racing to a probable deadlock, witn any dark horse a possible winner, Neff's friends are overlooking no chances.

After the meeting, Judge Spell, as a member of the executive committee named, was asked where the Neff support will come from, outside of Texas—assuming that Neff is able to get an instructed delegation from this state. "Josephus Daniels," said Judge Spell, is a strong supporter of Neff, and will quite possibly support a move to have Neff nominated; William Jennings Bryan is considered friendly to the Neff move, under certain contingencies, in spite of his announcement that his first support will go to a Florida democrat." Judge Spell also called attention to the fact that Governor Pinchot of Pennsylvania, while a republican, is friendly to Neff's policies, and has a strong following who might support Neff rather than some republican candidates.

The Saturday meeting was "spontaneous," it was announced, and not called by anyone, those taking part having gotten together by mutual agreement.

The following statement was given out:

"A groupe of friends and former neighbors of Governor Pat M. Neff met in the latter's old law office here this afternoon and went into the temporary organization of a "Neff for President' club, electing Dr. J. T. Harrington as temporary president and Joe Hale as temporary secretary.

"At the meeting it was decided to set a date in the near future for a mass meeting to be attended by all of the friends of the governor at which time the organization of the club will be made permanent and officers will then be elected and the activity of the club definitely decided upon.

"After going into the temporary organization, an executive committee, consisting of Dr. J. T. Harrington, W. W. Woodson, C. W. Meadows, Judge W. E. Ppell and Robert H. Rogers, was appointed, with instructions from the club to arrange a time and place for the next meeting of the club at which time all friends of the governor will participate in perfecting the permanent organization.

"It is pointed out in a resolution adopted by the club that the empire democratic State of Texas is "no further southwest than Massachusetts is northwest" thus intimating that geographically there is no more objection to Mr. Neff as the standard bearer for democracy than there is to Mr. Coolidge as the standard bearer for the republicans.

"The resolution in full is as follows:

"Whereas, it is a matter of common knowledge that the Honorable Pat M. Neff, governor of Texas, has been and is now being prominently mentioned by the press and party leaders throughout the state and nation as being available for the democratic nomination for president of the United States, therefore, his friends and neighbors favoring organization for this purpose, here organize a "Neff for President" club, and,

"'Resolved, That we call upon his friends throughout the state of Texas and upon the friends of democracy throughout the nation to join us in an effort to secure the nomination of this stalwart democrat, one who is a fae, wise and strong leader in the safe, wise and strong leader in the ranks of democracy, and one who hails from an empire state that is no further southwest than Massachusetts is northeast."

Among those attending the meeting were Dr. S. P. Brooks, Senator Edgar E. Witt, Dr. J. T. Harrington, Frank B .Tirey, Judge J. N. Gallagher, Alva Bryan, W. W. Woodson, Judge W. E. Spell, Ed. McMordie, Robert H. Rogers, Walton D. Taylor, Hilton E. Howell, C. W. Meadows, T. H. Jackson and others who are known to be intimate friends of Governor Neff.

It was declared that the governor's friends were taking this step on their own initiative and responsibility, and it is known that Governor Neff is now absent from the state, having left Austin for Washington some days ago.

HOW OLD ARE YOU?

Read what Roger Babson says:

Roger W. Babson in his book called "Business Fundamentals" says: "The ten years between twenty and thirty should be charged to education. Correspondence courses, Night Classes and Good Books constitute a most profitable investment at this particular point in a man's career."

Many young men and young women are ambitious but unable to leave home to enter a business school. Some of them spend the time vainly in wishing that they had money, or time, or both, so that they could prepare themselves for bigger things in life than they now enjoy. Others avail themselves of the opportunity offered by the Correspondence Department of our College, investing their leisure time in an education that will mean dollars to them in the future.

There never was any one who could not afford to take a business course. A business course always pays for itself and brings back to its recipient vastly more in dollars and cents than is ever spent upon it. You will pay for a business education whether you get it or not, by lost opportunties. Only people who are rich, or supremely gifted, can afford NOT to take a business course—and even they would be benefited by such an education.

Ford
THE UNIVERSAL CAR

Looking Ahead

LAST Spring a total of 350,000 people were disappointed in not being able to obtain deliveries of Ford Cars and Trucks, as orders were placed faster than cars could be produced.

The demand for Ford Cars and Trucks this Spring will, according to all indications, be far greater than last Spring.

Winter buying has been increasing at a greater rate than ever before.

Actual retail deliveries the past 60 days totaled 308,170 Ford Cars and Trucks, an increase of 1,961 a day over a year ago.

Over 200,000 people have already ordered Ford products on our purchase plan, the majority of whom will take delivery in the Spring.

The above facts are given with the suggestion that you list your order promptly with a Ford dealer if you contemplate the purchase of a Ford Car or Truck for use this Spring or Summer and wish to avoid delay in delivery.

Ford Motor Company

IMPROVED KITCHEN AIM OF CONTEST IN COUNTY

MISS GLADYS HENRY, HOME DEMONSTRATION AGENT WILL SUPERVISE.

Miss Gladys Henry, home demonstration agent for Milam county will conduct an improved kitchen contest in Milam Co., in co-operation with Semi-Weekly Farm News and the A. and M. College and United States Department of Agricuture.

The following plan has been announced by Miss Henry:

It is the aim of the Kitchen Improvement Contest to influence Texas farm women in regard to four particular matters:

1. To give to the original kitchen, that is, the kitchen at present, the greatest amount of time and thought looking to its improvement.

2. To make the kitchen as sanitary as possible and to finish or refinish the floors and walls so that they will be easily kept and yet attractive.

3. To procure at the smallest out lay of money possible the best furnishings and labor-saving equipment for the kitchens.

4. To so group and arrange the kitchen furnishings that the woman's work may be done with the greatest saving of time and energy; in other works, so that her head may save her body.

CONTEST PLANS.

1. The Improved Kitchen Contest will be under the direction of the Extension Service of the A. and M. College of Texas and the United States Department of Agriculture co-operating and the Semi-Weekly Farm News.

4. This contest is to be conducted by the Extension Service of the Texas A. and M. College, the home demonstration agent having direct charge in her county including the selection of the county committee of Judges, the Semi-Weekly Farm News not taking part in the appointment of such committee or the rendering of such decisions as are to be made in regard to the winners of the contest.

3. The Semi-Weekly Farm News will offer prizes for the contest.

4. The contest will cover a period of four months from January 1st. 1924, to May 1st, 1924.

5. Any farm woman who has not won first, second or third place in a previous county or state Kitchen Improvement Contest may enter the contest by registering her name with the county home demonstration agent and working under her direct supervision.

6. The contestant may enter one of two classes, namely:

Class 1. The Kitchen Making the Greatest Iimporvement for the least amount of Money. (Cost not to exceed $25.00.-

Class 2. The Kitchen Making the Greatest Improvement in proportion to the Expenditure. (Cost exceeding $25.00.)

a. In both class 1 and Class 2 the scoring shall be done on the basis of greatest accomplishment in proportion to the cash expenditure.

b. A mowan fust register in Class 1 or Class 2 at the beginning of the contest. As her plan develops, if she finds that the expenditure will be greater or less than that prescribed in the class in which she has registered, she may be transferred to another class provided she makes application to her county home demonstration agent.

7. Cards will be furnished the county home demonstration agent on which she must register the contestant, giving her full name and address and indicating the class which she desires to enter. A registration card will be filed in the office of the home demonstration agent, and one will be sent to the chairman of the state committee at the college.

8. The names of those entering the contest must be registered with the county home demonstration agent not later than January 10th and sent by her to the College by January 15th. No registration cards will be accepted later than January 15th, 1924.

9. A county committee consisting of two members shall be appointed agent. It shall be the duty of this by the county home demonstration committee to assist the county demonstration agent in conducting this contest. This committee shall grade the kitchens at the beginning of the contest according to a score card which is sent out by the college. At least two score cards should be filled out, one to be filed in the office of the home demonstration agent one to be sent to the contestant.

a. At the time of the original scoring the committee shall draw a simple floor plan of the kitchen showing exposure, the placing of windows, and doors and the arrangement of furniture. This sketch shall be accompanied with a description of the kitchen before improvement is made. Kodak pictures should also be included.

b. This inforamtion shall be filed with the original score card in the office of the home demonstration agent and shall be turned over to the district agent upon her arrival for district judging.

c. The original county scoring should be done by January 15th, 1924.

10. At the end of the contest, the original committee shall make a final score of tthe kitchens. The final judging in the county must be done between April 15th, 19224 and May 1st, 1924.

11. Each district home demonstration agent will visit the two winning kitchens in each county of her district and select the winner in Class 1 and Class 2 for the distirct. The district judging will begin immediately after May 1st, 1924, and will be completed as rapidly as possible by the district agent.

12. After the best kitchens in each district have been decided upon, the state honors will be awarded by the state committee, which shall be appointed by the Extension Service. This committee is to consist of three members, any two of whom will visit the prize winning kitchens in each district. The judging will follow the ginning not later than June 1st, 1924. district judging immediately, be-

13. Announcement of the state prize winners will be made, if possible, during the 1924 Farmers' Short Course at A. and M. College.

14. The final score in all judging —county, district and state—shall be based on the percentage of improvement during the given time, considering the greatest accomplishment in proportion to cash expenditure.

15. The names of the county winners must be made public before the arrival of the district agent for the purpose of judging, and likewise the names of the winners in the district must be made public before the state committee begins judging in said districts.

16. In no case must the district agent or memebrs of the state committee be asked to assist county ju g-ing.

17. The district agent or state committee will notify the county home demonstration agent as to the time of arrival in the respective counties for judging, and the time asked for must be reserved for this purpose alone. The county home demonstration agent must not plan other work for this time.

18. No charge will be made for voluntary labor performed or the use of material on hand, although itemized lists shall be made of each.

19. Gifts shall be valued and considered as that amount expended.

20. Each contestant shall make a list of the following to be handed to the county home demonstration agent at the time of final county judging:

a. Voluntary labor performed.
b. Gifts and value of each.
c. Use of material on hand.
d. Each improvement made.
e. Cash expenditures.

21. In the case where a new kitchen is built during the contest, the contestant may be allowed the following items without considering the cost:

a. Bare room.
b. Bare floor.
c. Fininshed wall.
d. Any equipment used previously.

Anything additional must be counted at exact cost.

22. The county home demonstration agent will offer suggestions for improvement.

23. The Semi-Weekly Farm News through its column will offer suggestions for improving the kitchen.

Melvin Weems, E. Second St., Cameron, says: "Whenever I took cold or when there was a sudden change in the weather, my kidneys bothered me by acting too freely. There was a sediment in the secretions and they burned in passage. My back got so lame, the muscles all through it were sore. I had taken all kinds of medicine, but didn't get any help at all. The doctor told me to take Doan's Pills. I got a supply of Doan's and took them as directed. They cured me and my kidneys have been strong since then."

If Kidneys Act Bad Take Salts

Says Backache Often Means You Have Not Been Drinking Enough Water

When you wake up with backache and dull misery in the kidney region it may mean you have been eating foods which create acids, says a well-known authority. An excess of such acids overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels, removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help clean and stimulate sluggish kidneys, also to neutralize acids in the system, so they no longer irritate, thus often relieving bladder weakness.

Jad Salts is inexpensive, can not injure and makes a delightful, effervescent lithia-water drink. Drink lots of soft water. By all means have your physician examine your kidneys at least twice a year.

TRY SULPHUR ON AN ECZEMA SKIN

Costs Little and Overcomes Trouble Almost Over Night

Any breaking out of the skin, even fiery, itching eczema, can be quickly overcome by applying Mentho-Sulphur, declares a noted skin specialist. Because of its germ destroying properties, this sulphur preparation instantly brings ease from skin irritation, soothes and heals the eczema right up and leaves the skin clear and smooth.

It seldom fails to relieve the torment without delay. Sufferers from skin trouble should obtain a small jar of Rowles Mentho-Sulphur from any good druggist and use it like cold cream.

BIG YEAR SEEN BY MOTOR MEN.

New York, Jan. 11.—National Motor Week came to an end here Saturday night with the close of the 24th National automobile show and the 19th annual motorboat exhibition, which have been running concurrently, the former in the Bronx Armory and the latter in the Grand Central Palace.

Motor manufacturers, dealers and just plain enthusiasts started scattering to their homes in various parts of the country Friday night, highly optimistic over the business prospects this year. Production and sales will be even greater than during 1923, automobile makers believe, with the bigger companies getting more of the business and the smaller firms less.

Fewer companies, reduction in the number of different makes, and better cars at lower prices, were urged by Charles M. Schwab, steel prince, at the National Automibile Chamber of Commerce dinner. Schwab advocated mergers to achieve this end.

Reports of mergers are being bantered about but all wanting or recognition. Opinion among executives seems to be: "Outside of General Motors, we're all independents—even Henry Ford— and getting along very nicely, thank you."

The four brand new automobiles introduced at the show are gaining a great deal of favor with the dealers and public alike. They are the Rollin Four, Eagle Six. Chrysler Six and Peerless Six. All are offering four-wheel brakes either as standard equipment or as optional at an added cost. The Rollin is balloon tire equipped.

Balloon tires probably will consume the greater part of discussions that automobiles makes will hold behind closed doors in the next few weeks. More than 50 per cent of the exhibitors at the show offered them as available equipment. Authorities say that the number will be materially increased before the Chicago show opens next month.

Every manufacturer and dealer came to the show, resigned to the fact that competition will be keener than ever this year. They are going home absolutely sure of it, as the number of accountrements placed on cars here and the trade arrangements testify.

All agree that it's going to be a most prosperous but highly interesting year as well for the industry.

FERTILIZER BUYERS —WATCH OUT.

Users of standard fertilizer formulas recommended by the Texas Experiment Station should be on their guard against using lower grades of fertilizers that are claimed to be these standard fertilizers, according to advices from Dr. G. S. Fraps, Chief of the Division of Chemistry, Texas Experiment Station, and State Chemist, who is charged with the administration of the fertilizer laws of Texas. Doctor Fraps points out that the second figue in the formulas recommended represents nitrogen and not ammonia. A 12-4-4 fertilizer, for example, should contain 12 per cent phosphoric acid, 4 per cent nitrogen and 4 per cent potash. In some states the second figure of the formula is used to denote the ammonia content which is only about 85 per cent of the value of the nitrogen content and some manufacturers name certain brands by number and for reasons of their own, use a number whose component figures not separated by dashes correspond with the numbers usually used to represent the formulas. For Example, a 12-3.3-4 fertilizer in Texas would be 12-4-4 fertilizer in Georgia, and the designation, "No. 1244" would be closely connected with the formula; but when it is considered that the first 4 in Georgia refers to ammonia and not to nitrogen, and that the formula would have to be stated as 12-3.3-4 in Texas, the designation "No. 1244" could be used to mislead the Texas purchaser. Doctor Fraps states that these numbers are going to be changed on fertilizers sold in Texas so as not to be misleading. He mentions also that information has come to him that one or two fertilizer manufacturers are offering some of these fertilizers which contain lower percentages of nitrogen than required in the standard formulas and that their salesmen claim them to be standard fertilizers. They are selling these at a lower price, but it ought to be known that the fomulas are not the standard formulas recommended for use in Texas. Purchasers of the standard formulas and other fertilizers should always read the guaranteed analysis and go by this and not by any other representation.

The following are the eleven standard formulas recommended: 12-3-0 containing 12 per cent of available phosphoric acid and 3 per cent nitorgen; 10-4-0 containing 10 per cent of available phosphoric acid and 4 per cent nitogen; 8-4-4 containing 8 per cent available phosphoric acid, 4 per cent nitrogen and 4 per cent potash; and 7-5-5, 8-7-0; 12-2-2, 12-3-3, 12-4-4, 10-4-2, 8-4-6, 12-0-4, of corresponding composition. Fertilizers containing the same percentages of phosphoric acid and potash, but lower percentage of nitrogen are not recommended by the Texas Experiment Station.

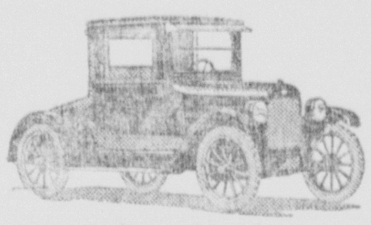
Who Makes the Automobile a World-Wide Utility?



for Economical Transportation

CHEVROLET

DID you ever consider how it comes about that a man who is hundreds of miles away from the factory can profitably and safely invest his money in an automobile?

Have you ever given a thought to the fact that millions of these intricate mechanisms are rendering splendidly consistent service to their owners day after day, hundreds of miles from the factories that built them?

When you think about these amazing facts, you will realize that the constant serviceability of any automobile comes from and depends upon the local dealer.

It is for this reason that we invite both the man who owns a car and the man who is in the market to buy one, to familiarize himself with the things which this institution can contribute to satisfaction in car ownership.

LYNCH DAVIDSON GIVES OUTLINE OF PLATFORM

CANDIDATE FOR GOVERNOR STRESSES EDUCATION, NEED FOR BETTER BUSINESS.

Commerce, Jan. 14.—Speaking before East Texas Normal college here this morning Lynch Davidson, former lieutenant governor, now a candidate fo rgovernor, outlined some of the policies for which he will stand in the campaign that is to be waged.

Mr. Davidson first of all took up the cause of education, saying that he knew this to be nearest to the hearts of his hearers, in fact, intertwined with their very lives.

"No stint or restraint should be permitted to hamper the educational institutions of this country in their magnificient service to mankind," declared the speaker. "There ought to be no scrimping or paring of their financial needs, no denial of their necessary facilities. If we are to educate, then we must cultivate proficient educators." The speaker expressed the view that there are a lot of leaks in the expenditure of the money paid the state government as taxes, and that these could be stopped, taxes reducted and yet have more money for education than has been possible under present conditions. He thought the penitentiary system, for instance, which is now a drain on taxpayers, could be made not only self-supporting, but to pay money into the state coffers, too.

"If it were in my power I would transform that system into one of the greatest highway building enterprises in the broad land, making such disposition of those unfortunates who are physically unable to work on the roads as might be deemed proper and humane," said Mr. Davidson. He thought this would serve education in two ways, one by making the convicts productive and helpful financially to the cause, and the other by having highways run to the schools, "bringing education to the door of every child."

Mr. Davidson said that he wished he had time to discuss problems of transportation, conservation of Texas' natural resources, matters of interest to farmers, the tax problem and other matters, but he only had time to touch upon these matters.

"Our eleemosynary institutions present a theme within themselves," said the speaker, who continued:

"The deplorable plight of the insane crowded in the various jails of the state for want of capacity in our insane asylums could likewise be remedied by the converting of the penitentiary system through the program mentioned by me. Then, it is to be borne in mind at all times, that the inmates of the prison system shall likewise be cared for in a humane manner.

"In all of these subjects there is a powerful and potent theme, dealing with the most interesting of all things, the human being the human heart, the human hand, and humanity. Time forbids my discussing them more extensively.

"Your consciousness of these responsibilities will be more deeply impressed upon you when you reach your field of duty. To you will be intrusted the task of training and tutoring those who are to constitute the citizenship of this common wealth in the future, and who are to guide its destinies.

"And while you train the minds of the growing children, holding up the torch of truth to their searching eyes, may you also keep ever well in mind the momentous responsibility to government with which you are charged by virtue of your calling—to convey to those children and implant in their minds their duties as citizens, their obligations to government, and the importance of safeguarding a priceless birth-right handed down to them by their ancestors."

Melvin Weems, E. Second St., Cameron, says: "Whenever I took cold or when there was a sudden change in the weather, my kidneys bothered me by acting too freely. There was a sediment in the secretions and they burned in passage. My back got so lame, the muscles all through it were sore. I had taken all kinds of medicine, but didn't get any help at all. The doctor told me to take Doan's Pills. I got a supply of Doan's and took them as directed. They cured me and my kidneys have been strong since then."

AN ORDINANCE.

Controlling the Slaughtering, handling and storing of meat and meat food products offered for sale within the City of Cameron; providing for the filing of name of all dealers in uncured meat products with the sanitary officer; providing character of and location holding pen and killing plant; providing for a penalty for a violation of this ordinance; and declaring an emergency.

Be it ordained by the City Council of the City of Cameron, Texas:

FIRST.

All butchers, peddlers, barters, sellers and storers of uncured meats, within the City of Cameron, shall file his name with the Sanitary Officer, giving business and address.

Second.

All animals used for meat purposes shall be in the pens adjacent to the slaughtering plant at least twelve hours before killing same, and no over-heated, exhausted or freshly hauled animal shall be killed until completely rested.

Third.

Location of killing plant shall be where drainage conditions are good. No pools or stagnant water shall be within 400 feet of the place of killing.

Five.

a. The house used for killing shall be large enough to supply ample room so as not to be crowded at any time, and shall have an abundance of natural light.

b. The walls shall be tight to prevent water, blood and other material from collecting in crevices and cracks.

c. The floors shall be constructed of brick, tile or concrete with plenty of drainage and with ample drains to carry off all water and blood at once.

d. All openings shall be screened with wire not less than 14 meshes to the inch on tight fitting frames, and kept securely closed, except when opened for immediate operation of such business.

a. Hides and pelts and hair shall be removed from carcasses in this room and immediately removed therefrom. The hide house or pit shall be at least 50 feet from the place of slaughtering, and shall have no connecting doors.

f. All viscera, including lungs, heart and trechea, shall be removed from the carcass as soon as hide or pelts are removed, and the edible offals shall at once be removed, washed in clean water and hung on racks. All edible offals shall be immediaetly removed from the room without removing any of their contents.

g. Care shall be taken not to contaminate the carcass with dirt, bile, blood or bowel contents, but if they should be, they must be immediately washed with clean water. On final dressing, the carcass shall be removed at once to a cooling room which shall be as near dust proof as possible.

h. No hogs shall be evisciate until all hair and hoofs have been removed and thoroughly scrubbed with hot water and a stiff brush removing all dirt and sand.

i. Ample washing facilities shall be provided for workmen at all times. The spitting upon whet stones, steels and knives will not be permitted. One vessel and disinfectant shall be kept on hand in case workmen find a diseased animal. All tools used shall be immediately disinfected.

Five.

The holding pen adjacent to killing plant shall be of concrete floor and all material shall be washed from the feet and legs of animals before they are killed. The said pen and plant shall be thoroughly washed and cleaned, including all tools, buckets, etc., afte reach day's kill, allowing no meat, blood or hair to remain from one day to the next. All water must come from a well or source which is not contaminated.

Six.

No feeding pens shall be within 50 feet of the killing plant, and hogs receiving tankage, offals or garbage must not be kept within six hundred (600) feet of the slaughter place.

Seven.

It shall be the duty of the person or persons in charge of the slaughtering places, on the first of each month to furnish the names and addresses of all persons who have had animals killed at the plant during the past month, to the Sanitary Officer of said City of Cameron.

Eight.

a. It will be the duty of any person, firm or corporation storing meats and charging fees for the same, to furnish the Sanitary Officer of the City of Cameron on the first of each month, names and addresses of all persons using the same for each past month. b. Any store room, refigerator, ice box, or other receptacle which is called natural or artificial for the cooling of fresh meats, shall not be used to store any article except meat.

Nine.

Any person, persons, firm, firms or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor, and shall, upon conviction thereof, be fined not less than One ($1) nor more than One Hundred ($100) Dollars, and each day's offense shall constitute a separate offense.

Ten.

Nothing in this ordinance, except Section 1 hereof, shall apply to farmers killing and selling meats raised by them on their own farms, but such farmers, before offering such meat for sale, shall file their names with the Sanitary Officer in accordance with Section 1.

Eleven.

The fact that there is no adequate ordinance controlling the slaughtering, handling and storing of meat and meat food products creates an emergency and an imperative public necessity that the rule requiring ordinances to be read on three separate days be and the came is hereby suseffect from and after its passage and pended, and that this ordinance take publication, as required by law, and it is so ordained.

We your Ordinance Committee, respectfully recommend that the above ordiance do pass.

W. O. Triggs.

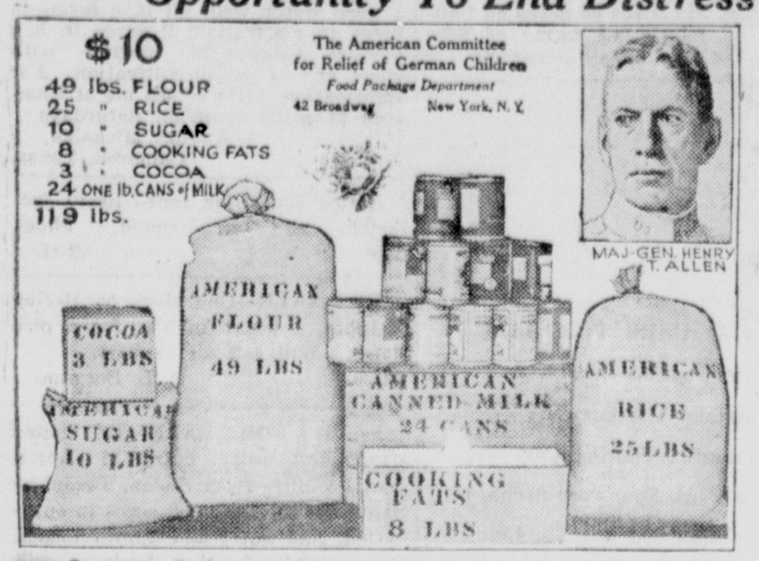
American Food Package Gives Kin of Sufferers in Germany Opportunity To End Distress



TO many of those persons of German extraction who now make their homes in America, Germany is still visualized as a land of plenty, with bountiful food supplies and healthy inhabitants. They are unable to convince themselves of the changes wrought by years of stress.

Germany has undergone a metamorphosis terrible to contemplate. Undernourished men and women totter to their daily toil—when there is work to be had—and the children are as those of another and less sturdy race. Bloom has gone from young cheeks and the rollicking laughter of childhood has given away to piteous appeals for food.

America has interested herself in the suffering population of Germany. A committee headed by Major General Henry T. Allen is co-operating with the American Friends Service Committee (Quakers) to see that the mouths of Germany's children receive nourishment. And now, the urge of humanity has moved the American people to take further steps to alleviate her distress. General Allen's committee has provided an agency whereby any resident of America may send food to distressed relatives or friends in Germany. It is a food package department. This bureau, upon receipt of $10, will send to any individual in Germany a package consisting of 119 pounds of nourishing food—more than could be purchased for an equal sum in Germany and some of it unobtainable at any price over there.

This package consists of 49 pounds of flour, 25 pounds of rice, 10 pounds of sugar, eight pounds of cooking fats, three pounds of cocoa and 24 tins of evaporated milk.

Imagine what it will mean to a starving person in Germany to receive this assistance!

The packages will be sent upon application, in person or by mail, to the American Committee for Relief of German Children, Room 938, 42 Broadway, New York City.

This is an opportunity not only for Americans of German extraction to succor distress but for everyone to respond to a plea from a stricken people.

CATO SELLS URGES TEX. CENTENNIAL PROGRAM

FORMER INDIAN COMMISSIONER WANTS STATE TO OBSERVE ANNIVERSARY.

That the forward-looking men of Texas should join and act at once on the proposition of holding a huge Texas centennial celebration sometime soon was urged Saturday by Cato Sells of Fort Worth,, well-known Texan and former Commissioner of Indian Affairs under the Wilson administration.

"The suggestion of a Texas centennial celebration is meeting with general approval," said Judge Sells, "and I hope will result in an organized State-wide movement. There were so many notable events during the priod from 1821 to 1836 that a centennial of any of those intervening dates could be appropriately celebrated. The exact time and place are not nearly so important as that forward-looking men and women of the State take the suggestion seriously and act. However, the sooner it can be well done the better.

"A centennial celebration on a huge scale would have tremendous value from every point of view. There are many consecrated spots and deeds of valor, some measureably overlooked, that should be indeliby emblazoned on the memory of men everywhere, and for all time, on the pages of history. Such a celebration would not only glorify the heroic characters and historic events of the formative period, but would, for the first time, give opportunity properly and effectively to proclaim our unequaled agricultural, industrial, commercial and social growth. It would offer a channel through which to inform and to intensify the interest of the Nation and the world in our near-Utopian opportunities.

"No other people love their State quite so dearly as Texans love Texas, but there is urgent need of thoroughly selling Texas to ourselves in a material way and then we shall be better able to sell our great State to the outside world. There are too many people who know Texas only as occupying a very large space on the map."

PRESBYTERIAN CAMPAIGN FOR CHRISTIAN EDUCATION.

Schedules have been arranged for the city section in the Texas Presbyterian education movement, with plans to close the statewide campaign for $1,350,000 by July 1. There are 10 large campaigns in cities where the Presbyterian population warrants more than in the smaller centers. These dates will be submitted to the local church leaders by the State executive committee and arrangements made to open at once.

Brownwood will open late in January and close February 25. Beaumont, February, March 9; El Paso, February 6, March 8; Austin, February 5, March 10; Galveston, February 29, March, 30; San Antonio, March 25, May 29; Waco, April 12, May 15; Sherman, April 12, May 12.

The schedules for the smaller city campaigns are as follows:

AGED PIONEER IN FALLS COUNTY BURIED IN LOTT

CONFEDERATE VETERAN FATHER OF CAMERON MAN IS BURIED.

Lott, Falls County, Texas, Jan. 12.—The death of Joseph S. Deer, 78 years old, who died at his home here last Monday afternoon, marked the passing of one of the early settlers of Falls county, having been a resident for fifty-seven years.

Dr. Deer was born Sept. 4, 1965, in Evergreen, Ala., where he lived until after the close of the Civil War. He came to Texas in 1867 and settled in Falls county, where he had lived since that time.

Mr. Deer served in the Confederate Army in the Civil War, being a member of Company F of the Seventh Cavalry of the famous Hood's Brigade He enlisted on March 3, 1892, and was honorably discharged April 16, 1865, at the close of the war.

Mr. Deer married Miss Christian Williamson of Falls county in the spring of 1871. His wife survives him. They had seven sons and a daughter, all of whom were at their father's bedside when he died. They are James and Zenas Deer of Bishop, Nueces county, Joe Deer of Grandfield, Okla., Sam Deer of Cameron, Chirchill Deer of Santa Anna, Coleman county, Leonard Deer of Lot and Mrs. H. M. Prather of Gilmer, Upshur county.

Funeral services and burial were held Tuesday afternoon in Clover Hill Cemetery, the, the Rev. Mr. Griffith and the Rev. Mr. Goens of this city officiating.

Mr. Deer was affectionately known to many people of Lott and Falls county as Uncle Joe, and was a familiar figure on the streets here, as he rode a snow-white horse that was his constant companion and bore his rider with pride and majesty. Master and horse were almost inseparable and during his last illness Mr. Deer inquired about his faithful mount, being solicitous about the horse's comfort during the recent cold weather.

Mr. and Mrs. Sam Deer and their two children attended the funeral of Mr. Deer's father at Lott last week. Mr. Sam Deer is section foreman on the San Antonio and Aransas Pass R'y and with his family has resided at the section house in Cameron for several months.

The above funeral notice is copied from thte Dallas News of Sunday.

Mrs. Stanley Bowles and little daughter, Virginia, who have been guests of Mrs. S. M. Burns and Miss Sallie Kate McLane, for the past ten days, will leave Saturday morning for Dallas an dwill later return to their home in Indianapolis, Ind.

NEW LAMP BURNS 94 PER CENT AIR

BEATS ELECTRIC OR GAS.

A new oil lamp that gives an amazing brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94 per cent air and 6 per cent common kerosene (coal oil).

The inventor, T. E. Johnson, 609 W .Lake St., Chicago, Ill., is offering to send a lamp of 10 day's FREE trial, or even to give one FREE to the fiirst user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make $250 to $500 per month.

SAGE TEA DANDY TO DARKEN HAIR

It's Grandmother's Recipe to Bring Back Color and Lustre to Hair

You can turn gray, faded hair beautifully dark and lustrous almost over night if you'll get a bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old famous Sage Tea Recipe, improved by the addition of other ingredients, are sold annually, say well-known druggists here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound to-night and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.

NEFF SCORES PRO LAW ENFORCEMENT IN SPEECH

TELLS ANTI-SALOON LEAGUE GOVERNMENT SHOULD USE ARMY AND NAVY.

Washington, Jan. 15.—Individual States have no right to refuse properly to enforce the eighteenth amendment, but it is not to be expected that those States which are now lax in their enforcement will act any differently until the Federal Government itself takes the initiative and inaugurates a vigorous campaign to compel respect for the prohibition law declared Gov. Pat M. Neff of Texas Tuesday in an address before the national convention of the Anti-Saloon League.

The Governor, during the course of his address, criticised in no uncertain tones both those States which do not appear to be in sympathy with the constitutional amendment and Federal officials who do not compel the country to respect the law.

The Texas Governor was given a rousing reception by the convention, his speech coming at the close of a day replete with excitement. Early in the morning, Representative H. W. Temple of Pennsylvania warned the league that unless it performed strenuous work at the polls the next Congress would be "wet." He declared that Congress should make any additional appropirations requested by the Treasury Department such as for building a fleet of fast Coast Guard ships to prevent rum running.

A general attack upon enforcement methods generally was delivered by Congressman Cramton of Michigan, who charged that Prohibition Commissioner Haynes was "all wrapped up in red tape." He further asserted that the position of a a prohibition commissioner was not provided for in the Volstead act. The Association Opposed to the Prohibition Amendment was attacked as unpatriotic, and members of Congress who supported the association were declared to be responsible, in part, for the lack of proper enforcement in the States they represented.

"The Federal Government, it seems to me, is not enforcing the prohibition law with either the vision or the vigor its importance demands," declared Gov. Neff in opening his address. "Both the army and the navy should be used to see that our Constitution is obeyed at home and respected abroad. The army and navy are subject to congressional demand and executive order; they should be used."

Referring to conditions along the Mexican border, the Governor declared that there are 20,000 inactive soldiers in Texas who should be used in an effort to eliminate liquor smuggling, a duty now placed in the hands of the State and performed only at tremendous cost. Atlantic Coast rum running should be stopped by effective use of American battleships, he said, adding "if a nation should send a ship here loaded with outlawed liquor that nation should be made to hunt for its flag at the bottom of the ocean." Great Britain's action in declaring that any ship beneath a foreign flag could not enter British waters if it had a slave aboard was cited as a precedent.

After outlining the successive steps in civilization's progress, Governor Neff said the national prohibition amendment was the verdict of a public conscience. "That constitutional provision is there to stay," he declared amid the applause of his audience.

"If anyone thinks the American people will ever take a backward step by the repeal of the prohibition law let him consign that thought forever to the limbo of oblivion. I feel safe in saying that the eighteenth amendment is here to stay, because behind the eighteenth amendment stands the nineteenth amendment given to women the right of the ballot. It is not the Volstead law that is now on trial; it is not the eighteenth amendment that is now on trial; it is the Ameircan Republic.

The effort to legalize wine and beer in the face of the prohibition amendment is an effort to destroy constitutional law, he asserted, and Ameirca should see to it that the saloon does not re-enter the country behind a beer barrage. He also pointed out that State sovereignty is endangered by a policy of negation as to enforcement of the prohibition law, declaring that the result of the Civil War forever settled the issue of the right of the State to refuse to co-operate and conform to the constitutional laws of the Union.

"No law should be repealed merely because its violators sometimes escape punishment. The ancient law against murder does not cease to operate, yet from the time Cain killed Able murder has been on the increase. The brewers and the bootleggers have thrown down the gauntlet to the constituted authority of this Government and have defied it to give vitalizing power to a part of the Constitution of the Nation. At their arrogance and insolence I register my unyielding protest."

Until the Federal Government provides a penalty that punishes for bootlegging, he asserted, effective prohibition can not be expected. Respect for the low, however, must be exacted at any cost, and in exacting that respect the Federal Government should lead the way with the States following close after.

IMPORTANT FEATURE IS HARD TO EXHIBIT.

"Back of every automobile is the local dealer," says G. C. White of the White-House Motor Company., "and it is not always easy to visualize him when one is looking over cars in the sales room floor.

"Sometimes the dealer has more to do with the suitability of a car than the model or sepecifications. Especially is this true of cars whose owners exact an unusual measure of performance.

"The degree of dealer responsibility for local satisfaction in ownership is as important to the car owner as good materials and careful workmanship in the car."

YOUNG KLAN COUPLE WED IN WAXAHACHIE BEFORE FIERY CROSS.

Waxahachie, Texas, July 14.—In the first Ku Klux Klan wedding south of Dallas, a Waxahachie young klan couple were married in the presence of approximately 250 robed klansmen and klanwomen in the klavern of Klan No. 256, realm of Texas, the Waxahachie organization, Friday evening.

The ceremony was performed before the altar of the invisible empire, where stood the flaming cross and unfurled American flag. A minister, member of the local klan, officiated.

As the wedding march was played on a piano on the cyclops platform, the principals and attendants, all in full regalia of the klan, entered the main auditorium from a room in the north of the hall and proceeded to the point where the ceremony was performed.

At the close of the service the cyclops presented the bide with a pretty bouquet, which he informed her, "Were grown on American soil by an American and presented to an American girl by an American."

A flashlight photograph was made of the wedding scene, including the entire assemblage.

OPEN NOSTRILS! END A COLD OR CATARRH

How To Get Relief When Head and Nose are Stuffed Up.

Count fifty! Your cold in head or catarrh disappears. Your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more snuffling, hawking, mucous discharge, dryness or headache; no struggling for breath at night.

Get a small bottle of Ely's Cream Balm from your druggist and apply a little of this fragrant antiseptic cream in your nostrils. It penetrates through every air passage of the head, soothing and healing the swollen or inflamed mucous membrane, giving you instant relief. Head colds and catarrh yield like magic. Don't stay stuffed-up and miserable. Relief is sure.

PANHANDLE NEWSPAPER FOR THOMAS D. BARTON

WAR RECORD SPLENDID SAYS PLAINS PAPER IN REVIEW OF CANDIDATE.

The announcement of Adjutant General Thomas D. Barton of his candidacy for Governorship of Texas has renewed public interest in this remarkable man. Remarkable in that he is not a practical politician, but his record shows him to be a practical business man, fearless, and striving at all times to live up to his oath of office.

Ex-service men will recognize in General Barton a former "buddy" who won great honors on the field of battle and who wears such honors with becoming modesty.

"On October 8, 1918, near St. Etienne, France, Captain Barton advanced his company against a strongly fortified enemy position, and succeeded in capturing the enemy works, together with twenty machine guns and ninety prisoners. After he had lost all of his company officers and sustained many casualties in his command, Captain Barton again moved forward through an intense barrage, and established the most advanced position of the first day of the battle."

These are the exact words used by General John J. Pershing in awarding to Captain Barton the Distinguished Service Cross, shortly after he had been promoted a Major. In addition to this decoration, Major Barton received both the French and Italian Croix de Guerre.

In addition to these decorations General Barton received six wounds in the same day's action—the scars of which he bears to this day.

General Barton began his military career as a private in Co. G., 6th. Texas Infantry, on July 10, 1892. After having been promoted Corporal, then Sergant, he was, on Feb. 26, 1895, commissioned as First Lieutenant, Co. F, 6th Infantry. During the Spanish-American War, he served as a First Sergant, Co. I, 1st Montana Infantry, seeing service in the Philippines from May 1898 to August, 1899. On returning home he was commissioned Captain of Infantry, April 15, 1901. (Co. E. 4th Texas.) On June 4, 1917, he was commissioned Captain of Infantry (Co. A. 7th Infantry,) and drafted into Federal service on Auguest 5 of the same year. For gallantry in action was promoted Major, 142nd Infantry, October 29, 1918. Honorably discharged October 10, 1919. Commissioned **Major, O. R. C.**, Dec. 6, 1919. Promoted Lieut.Col. O. R. C., Jan. 23, 1922. Appointed Adjutant General of Texas (Brigadier General) Jan. 20, 1921. Re-appaointed March 1, 1923.

General Barton was born January 20, 1875, at Kilgore, Gregg County, Texas, the son of George W. Barton and Ellen Dickson Barton, and grandson of Colonel J. M. Barton, Henderson, Texas, and Hon. James W. Dickson, Kilgore, Texas. The Barton family removed to St. Joe, Montague County, in 1890 and to Amarillo in 1908. General Barton was educated in the public schools of Texas. He following the printer's trade for 12 years when in 1903 he entered the drug business. He still owns a large drug business in Amarillo. For a number of years he traveled for a large Kansas City drug house.

One of the principal points in his platform will be law enforcement. As Chief of the State Ranger Service he has made a wonderful record along this line during his present term of office. Here in Bexar county his little handful of Rangers has seized more stills and more illicit liquor during the short period they have been stationed here than all other officers combined, and in spite of the active opposition of these other officers.

General Barton is in the race to win. There is every good reason in the world why he should win. And he will win in the July primary. If the voters who believe in law enforcement and in economy in state affairs will do their duty in July there will be no run-off in the gubernatorial race.

URANT INJECTS SURPRISE AT SHOW—CHRYSLER; SHOW OPENED AUSPICIOUSLY.

New York, Jan. 12.—Heralded as e most important event of its nd ever held in the automobile in- ıstry, the National Automobile ow, which closed Saturday night, et expectations to the letter. It artled amazed those who wanted to amazed and enthused every one the multi-thousands who saw the hibition in the great armory in e Bronx.

Optimism and confindence that the dustry is entering an even greater ar dominated all discussions where ıtomobiles were the subject. Deal- s and distributors, here from all arts of the world, have the same ory to tell—1924 is going to be even better year. If thinking and plan- ng makes it so there is no ques- on of the result.

Mounted on the largest sweep of oor space available in this country r exhibition purposes, thte show st closed dazzled and delighted the sitor with its brilliance and com- leteness. On taking a second look e was provided with surproses on all des.

Three matters responsible were our-wheel brakes, balloon tires and teel wheels. There was scarcely one ompany exhibited at the show that dn't have at least one of these ac- outrments on one of its show cars nd there were many who had all ree.

Thirty -one companies are offering our-wheel brakes as either standard r optional equipment. Several firms, ow offering them as optional at an dded cost, plan to adopt them as tandard before the Chicago show pens. Durant joined the four-wheel rake group this week when he an- ounced these brakes as standard quipment on the new Eagle Six, hich will sell at $800, and optional t an added cost on all other Duarnt roducts, including the Star car. The harge for four-wheel brakes on the tar will not run more than $30, of- icials say. Pierce-Arrow has also eclared in favor of the four-wheel rake.

It is significant, too, in this con- ection to note that all the new cars, Chrysler, Rollin, Peerless Six and Eagle are four-wheel brake equipped. At least four variations of this type f brake were displayed at the show. Balloon tires came in for even more iiscussion than four-wheel brakes.

They are, of course, a more recent development and because of the rapi- dity with which the movement has aken hold, occupy even a more pro- ninent place today in the motor spot- ight.

Twenty-nine companies are offer- ng them as standard or optional equipment at an added cost. Some of he companies are: Apperson, Ander- son, Lexington, Moon, Marmon, Stutz, Westcott, Rollin, Reo and Willis Sainte Claire.

It is expected that balloon tires will even outstrip four-wheel brakes n popularity as soon as manufac- turers are able to turn them out in sufficient quantities and as soon as efficient service may be had on them n all sections of the country.

Steel wheels seem to be coming in for a greater share of favor. For the first time in show history, cars on steel wheels exceeded the number mounted on wood. The steel wheel among other things, makes a more at- tractive appearance and it was for this reason that many makers set the majority of their cars at the show on steel.

Several price changes were made during the week. Rickenbacker re- duced the price of all open types $40; Gardner reductions average $100 and Studebaker made downward revisions in the price of the five-passenger coupe and sedan of the light six line only. The coupe reduction is $90 and the sedan cut $65.

"Miss America" Declares Tanlac Wonderful Health Giving Tonic

Miss Campbell in "Miss America" crown which she has won on two oc- casions.
Photogrph by Atlantic Foto Service.

Miss Mary Katherine Campbell, twice proclaimed "Miss America," has taken TANLAC and endorses it in a statement recently given to the women of America through In- ternational Proprietaries, Inc., dis- tributors of this great tonic. In this statement, Miss Ameirca declares that Good Health is the basis of all Beauty, and advises women who would be beautiful to "first find good health."

Her complete statement as given is as follows: "I consider it a great privilege to be able to tell the thousands of women everywhere Health is the basis of all beauty. Wihtout good health, one is apt to be run down, nervous, underweight, high-strung, anemic. Indigestion drives the roses from a woman's cheeks and robs her of that radiant quality of womanhood that is real beauty.

"I have taken TANLAC and I do not hesitate to say that it is a won- derful health-giving tonic. It has brought relief and good health to many women, and with good health one may have a measure of beauty that will overcome shortcomings in face and figure.

"Rosy cheeks, sparkling eyes, a well-rounded figure, a lovable dis- position, go hand in hand with good health. To those searching for beauty, I would say—'First of all, Find Good Health.' The TANLAC treatment has proven itself a boon to womankind, and I recommend it.'

Miss Campbell has written a book- let on Health and Beauty which may be secured by filling out the coupon below.

"Strong and Well"

"I WISH you could know how much I am improved since taking the Cardui," writes Mrs. Nannie Brown, of Black Rock, Ark. "You wouldn't know me for the same weak invalid I was before I took it. At my . . . I had to keep off my feet or I would fall. I couldn't do my housework, and just got where I'd most as lief be dead as living. Some one told my husband of Cardui. He got it for me and I took three bottles before I stopped—then off and on for the last three years just as a tonic. I saw a decided improve- ment after my first bottle. I used the three, and was able to do my work with ease, and now I sew for my family and for others. I am feeling fine, and strong and well."

Take Cardui! It may be just the medicine you need.

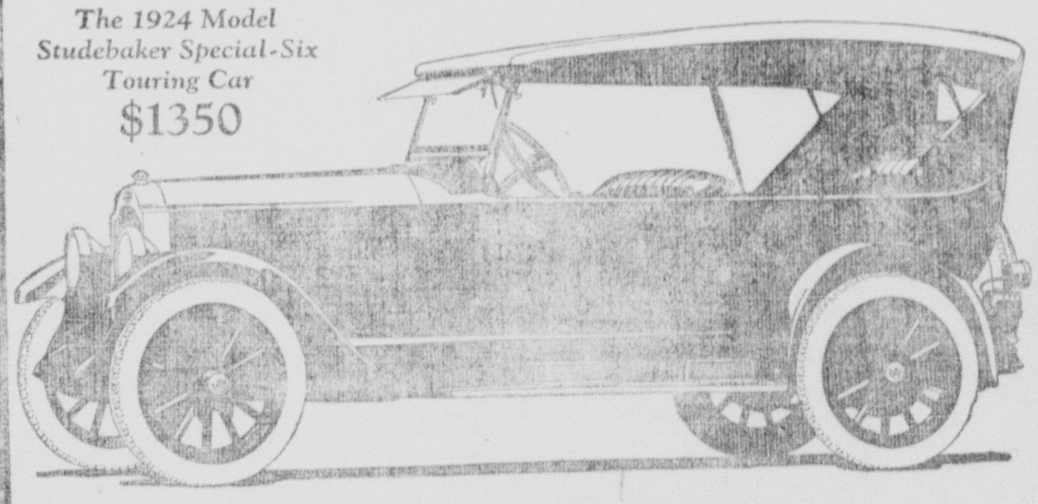
The 1924 Model Studebaker Special-Six Touring Car

$1350



It is logical that we should ask the prospective buyer to gauge the worth of the Studebaker Special-Six by the measure of its sales success.

Why mention the distinctive motor or any other feature of this unusual car when the American public itself has established the greatest of all selling arguments in its favor by buying it?

Automobile license figures for every state in the Union continue to tell their own uncolored stories of Studebaker popularity.
